

#### Technical Data

|                                       |                               |
|---------------------------------------|-------------------------------|
| Length 2 (L2) :                       | 57 mm                         |
| Thread type :                         | Metric thread                 |
| Material number :                     | 1.4301                        |
| Material-diameter ( $\varnothing$ ) : | 7.1 mm                        |
| Material :                            | Stainless steel A2 - AISI 304 |
| Inside diameter (iD) :                | 12 mm                         |
| Thread (GW) :                         | M8                            |
| Length 1 (L1) :                       | 60 mm                         |
